Togo Mission Update

VOL. 3 No. 1

January NEWS

New Field : Bandé Village

The village of Bandé has been a new opportunity for outreach. The MEDiC-Togo team has continued their visits to the village. The villagers are excited, and have begun to build a shelter for a church. We are grateful their hearts are open to hearing the Good News.

During one visit, Pastor Karim was given a glass of water. He noticed the water had the odor of urine and inquired. The chief explained that the villagers obtain their water

from a stream about 3 miles away where herdsmen also bring their cattle. The villagers try

to dig near the riverbed to obtain clean water as best they can. People from several other surrounding areas also obtain their water here.

Pastor Karim asked why they had not tried to dig a well in the village. The villagers showed him their attempt at digging the well. They had dug about 6 meters until they hit rock, and by hand are unable to proceed.

As you take a drink of your water today, pray for this village and for us to have wisdom in how to best help the people of Bandé.

Christmas in the heart of kids

We would like to thank you for your donations for Christmas. By this act we were able to bring joy in the hearts of the children in our churches in Togo. It is great satisfaction to be able to bring joy in their hearts. They have an opportunity once a year, to celebrate the Lord Jesus, eat, drink and enjoy themselves.

Botcholeo Church Building Continues

The church at Botcholeo continues progress on the new building. We are in needs of funds to purchase wood and aluminum for the roof. Despite this being a “construction zone”, the church members continue to meet here each service.

MEDIC- BENIN : WAWADÉ CHURCH

We are very excited with Wawadé church at the North of Benin. Wawadé is a Muslim village. A great work is being done there by our Lord Jesus Christ. More than 100 people, all Muslims, gave their heart to Jesus. They made sand bricks and are very excited to build the church. MEDiC provided cement for the foundation. We need your help to provide wood and roof.
